A Specialist School for Technology and Computing

Science Module Results February 2020

Dear student,

The February 2020 Science Module Results were sent to your parents today via Groupcall. Congratulations on your efforts! I hope you are pleased with the outcomes. However, if you feel you could improve upon these results, there may be an opportunity to sit the modules again in **November 2020** if you feel you need to.

Please note that grade boundaries are available on the following link:

<https://ccea.org.uk/downloads/docs/ccea-asset/General/GCSE%20Science%20Uniform%20Mark%20Boundaries%3A%20March%202020.pdf>

These will show you how close you are to a particular grade. If you wish to get a remark the cost is around £18.45 and can be achieved by emailing Mr McGlue emcglue729@c2kni.net with your relevant module details. Please remember that if you request a re-mark, the mark can go up or down.

We look forward to seeing you back at St Louis in the near future and providing the help and support you need. In the meantime, continue to positively engage in distance learning from home. What is most important in the current circumstances is for you to keep safe, stay at home, wash your hands regularly.

I hope you and your family have a well-deserved break over the Easter holidays.

Mr K. Martin
